About
AAFT
**School of Fashion
& Design**

Create. Curate. Conquer.

The AAFT School of Fashion is more than a design institute – it's a launchpad for next-gen creators who want to shape global style. From fashion sketching to final fittings, we train students to think like designers and act like entrepreneurs. Our curriculum blends hands-on garment construction, fashion tech, branding, sustainability, and runway preparation - all guided by professionals who've been backstage at Fashion Weeks across the globe.

Students engage in live styling projects, fashion shoots, exhibitions, and collaborations with stylists, photographers, and influencers. The focus? Building real-world skills for fashion-forward careers in design, merchandising, editorial styling, and personal branding.

A study tour to Milan -
the world's fashion capital –
brings it all together.

It's where what you wear meets what you dream.
